

REVOL IN BLACK, TASTE OUR FLAVOR OF INNOVATION

As the leading French manufacturer of culinary porcelain, Revol is known worldwide for the exceptional quality of its products! The composition of Revol porcelain and its very high firing temperature make it perfectly suited to high-end culinary ceramics. Thanks to the unique expertise developed through 222 years of manufacturing and from its close relationship with major players in the catering industry comes the company's drive, inspiration and creativity. Revol constantly strives to push the boundaries in modern catering, to find ever more innovative culinary solutions.

Today, Revol is proud to present its most recent innovation...

BASALT, SLATE IN PORCELAIN

Basalt will not scratch, nor chip like natural slate. It is non-porous, and is therefore very hygienic. Basalt will not absorb foodstuffs or bacteria. In addition, it is black all the way through.

BELLE CUISINE, CAST IRON STYLE

Revol creates a new glaze and new effects for its black body porcelain... Without the weight of a traditional cast iron dish, Belle Cuisine Cast iron style is 100% food friendly and made with all natural materials. Your dishes don't stick, nor rust, nor change color and they are easy to clean. Belle Cuisine collection provides a high resistance to thermal and mechanical shocks.

ECLIPSE

Made of dyed-in-the-mass black culinary porcelain, Eclipse is the first culinary porcelain collection to dare a combination of colors and textures with its subtle blend of matte paste and glossy enamel. Each Eclipse piece goes through 30 or more manufacturing steps at the expert hands of our workers, who have been passing down our unique skills through generations. For professional use, the sturdy moulded-in handles ensure excellent impact resistance.
